**VII. Information on the Requirement/Voluntariness to Provide Data:**

You have to provide your data in order to take part in the recruitment process and study at the University.

If you do not provide your data, we may refuse your matriculation, making and entering into the agreement, and you may lose the right to study at the University of Warmia and Mazury in Olsztyn.

I have read and accept the above information

**Consent to the processing of personal data**

I agree to the processing of personal data by the University of Warmia and Mazury in Olsztyn with headquarters at ul. Michała Oczapowskiego 2, 10-719 Olsztyn for the purposes of recruitment for studies, statistical and archival.

*Please be advised that your consent may be revoked at any time by providing a withdrawal form of consent to the UWM Data Protection Inspector, which can be downloaded from: [www.uwm.edu.pl/daneosobowe](http://www.uwm.edu.pl/daneosobowe). Withdrawal of consent will not affect the lawfulness of the processing which has been carried out on the basis of your consent prior to its withdrawal.*

Be careful while filling the “Education”. Fill in information regarding Secondary education and then do the same for Higher education.

Education

While typing your personal data, remember that if you're enrolled, your data will be uploaded to university systems. Your personal data will be displayed on students lists and printed on university issued documents. In Polish, proper names (such as school names, city names) are written with a capital letter. Only the first letter should be capital, not all of them. Do not enter Cyrillic or Chinese characters, use Latin transcription instead. Do not put spaces or any other punctuation in document numbers.

Depending on what studies you apply for, you need to add respective certificates concerning your education or other qualifications. In some cases you can add documents without entering all the information about them. However, you might need to fill in the missing data before printing the enrollment application form.

\* Fields marked with asterisk symbol are required.

Save

Secondary education

High school type\* High school diploma

High school name\* School of Afghanistan 20 / 200

Start entering name of your school and the system will display a list of hints. Please enter a town name to display a list of schools that are based in it. Example: after typing 'Warsaw XXI' the system will display a list of schools based in Warsaw that contain 'XXI' in their name. If the school you are looking for is not on the list, please enter it manually.

High school city\* Kabul 5 / 50

Documents Add information about your maturity or equivalent documents below (concerns only candidates for first degree studies).

Save and add certificate

Olympiads and contests

Documents Here you can add information about your achievements in olympiads and other contests, which you want to benefit from in the recruitment process.

Save and add certificate

Higher education

Student number 0 / 12

Student number at the University of Warmia and Mazury in Olsztyn (if you are or were a student).

Documents Add information about your higher education below (concerns only candidates for second degree studies, doctoral schools, and postgraduate studies).

Save and add certificate

Certificates and other documents required to start studies

Documents Add information about your other certificates below (concerns only candidates for studies which require additional certificates).

Save and add certificate

### Environmental Engineering - second-cycle, full-time, in the field of: 1. Environmental Biotechnology 2. Process Engineering, Environmental Protection 3. Biotechnology (intra-year recruitment)

#### Environmental Engineering - second-cycle, full-time, in the field of Environmental Biotechnology

We offer a Master's course in Environmental Biotechnology for international students. Environmental Biotechnology is an exciting, fast-growing interdisciplinary field with excellent career opportunities. Our graduates with a Master's degree in this field possess skills in engineering and molecular biology that are in demand in a wide range of industries and scientific fields. Our teachers have years of experience in teaching international students. They are actively involved in the field, with a variety of ongoing research programs and many international publications. We are committed to both practical and theoretical education, so our Master's students work with us on our research projects in our modern laboratories. The programme of Environmental Biotechnology assumes interdisciplinary knowledge and skills, including a combination of methods of molecular biotechnology, chemistry and environmental technologies for the protection and sustainable use of the environment.

#### Qualifications

Graduates possess advanced knowledge of natural sciences. They have technical expertise in the field of biotechnology, including bioenergy technologies. They can solve problems related to the use of the natural environment using various technologies, including remediation. They use molecular techniques as a tool to draw conclusions about the state of the environment. When dealing with damage to the environment, they can identify the risks and take action to restore environmental balance. Our graduates understand the desirability of continuing education, professional development and international cooperation, and are well prepared for doctoral studies if they choose this career path.

#### Professional permissions

Our graduates are prepared to work in companies that use innovative solutions in environmental biotechnology, including the exploitation of technological systems used in the environmental protection and design and operation of solutions used for renewable energy production. Our graduates are well prepared for a successful career in industry or academic international institutions.

### Payments

Remember to set priorities for your payments: [Set priorities](#)

On this page you can view a summary of financial operations on your IRK account. If the system has been configured to support payments in more than one currencies, your payments will be divided into separate tables in regard to these currencies. Your account deposits have positive value in the *Amount* column, while charges have a negative value. In the *Status* column the current status of your application fee is displayed. If the application has not been paid on time or a refund has been made, the payment will be displayed with grey background and its amount will not be calculated into the sum that is displayed above the table.

In the *Payment deadline* column there is a date until which you should make the payment at the latest, and below - in brackets - there is a date until which the money must be transferred to the University. Please make the payment in advance. If a recruitment payment isn't settled on time (the date in brackets), the application will be considered only on candidate's request, provided that the payment was made no later than the last day of registration for given studies.
