

## Topic: HumanTech Summit 2026: Call for Papers Deadline Extended

Dear Colleagues,

We are pleased to announce that the submission deadline for **HumanTech Summit 2026** has been extended!

### Beyond Intelligence: Human Futures in a Technological World

 3–5 December 2026

 SWPS University, Warsaw, Poland

 [www.humantechsummit.com](http://www.humantechsummit.com)

To provide additional time for researchers and practitioners interested in contributing to this year's edition, the deadline for abstract submissions has been extended.

### Updated Important Dates

 **Extended Submission Deadline: July 10, 2026**

 **Notification of Acceptance:** July 15, 2026

 **Conference:** December 3–5, 2026

### Join HumanTech Summit 2026 and Present Your Research

We invite submissions for the fifth edition of the international HumanTech Summit, organized by the HumanTech Center at SWPS University in Warsaw.

HumanTech Summit is an interdisciplinary event dedicated to the social and psychological aspects of emerging technologies. The conference brings together researchers, practitioners, designers, as well as representatives of business and the public sector, creating a space for meaningful exchange of knowledge and experience.

### Main Theme: “Beyond Intelligence: Human Futures in a Technological World”

This year's edition encourages critical reflection on the role of technology in contemporary society—not only as a set of tools supporting human activity, but also as forces increasingly shaping the ways we think, make decisions, and act. Technologies influence individual experiences, social relationships, cultural norms, and the ways we understand and interpret reality.

### Keynote Speakers

We are honored to welcome three distinguished keynote speakers:

**Dr. John-John Cabibihan, Ph.D.** (Qatar University, Doha, Qatar) is a professor specializing in social robotics and human–robot interaction. He has authored over 200 publications, co-invented patents, co-founded the *International Journal of Social Robotics*, and initiated the *International Conference on Social Robotics (ICSR)*.

**Professor Joanna J. Bryson** (Hertie School, Germany) is an internationally recognized expert in AI ethics at the intersection of psychology and artificial intelligence. She co-authored the *British Principles of Robotics (2011)*, the first national code of ethics for AI, and published one of the earliest works on AI anthropomorphization, *Just Another Artifact (1998)*.

**Prof. Peng Liu** (Zhejiang University, China) is an expert in the human and societal implications of emerging AI technologies, including generative AI and automated vehicles. His interdisciplinary research spans psychology, ethics, and technology, with publications in leading journals such as *Engineering*, *Risk Analysis*, and *Cognition*. He has been recognized among the world's top 2% scientists by Stanford University and Elsevier (2021–2024) and received the IEA/Kingfar Early Career Researcher Award in 2024.

## Topics of Interest

We welcome submissions related to:

- ◆ AI and society
- ◆ Generative AI and large language models (LLMs)
- ◆ Social media and technostress
- ◆ Human–Robot Interaction
- ◆ VR/AR/XR technologies
- ◆ Technology, health, and well-being
- ◆ Cybersecurity and digital threats
- ◆ Autonomous systems
- ◆ Technology in conflicts and crises
- ◆ Human augmentation and BCIs
- ◆ Design, creativity, and human-centered AI

## Submission Guidelines

- Abstract length: 200–300 words
- Language: English
- Submission via: [www.humantechsummit.com](http://www.humantechsummit.com)
- Accepted contributions will be presented as:
  - Oral presentations
  - Posters

## **Why HumanTech?**

HumanTech Summit connects science, technology, and society, creating a platform for meaningful interdisciplinary dialogue and collaboration.

**Strategic Partner: ORLEN**

**Honorary Patronage: Marcin Kulasek – Minister of Science and Higher Education,  
Rafał Trzaskowski – Mayor of Warsaw, UN Global Compact Network Poland**

We encourage you to take advantage of the extended deadline and submit your work. We would also appreciate it if you could share this call with colleagues and networks who may be interested.

We look forward to welcoming you to Warsaw in December.

Best regards

**HumanTech Summit 2026 Organizing Committee**
